

--sent 3/11/20--

LPS Families,

We would first like to thank all of our families that have participated in our *Parent-Teacher Conference/Student Showcase Week*. It is always one of the highlights of the year to connect with families!

As we now wind down the week and prepare for the spring break ahead, we wanted to provide you with an update on the coronavirus (COVID-19) situation.

While there are still no confirmed cases in our school district boundaries, please know that we continue to be in close contact with the Clay County Public Health Center, as this is a very fluid situation. We have developed an informational flyer that families can access by [clicking here](#). This document should be able to answer many of the questions that you may have.

Below is some additional information that you may find helpful to know:

- Our spring break week will allow for deep cleaning to take place in our buildings. The deep cleaning process will then continue at every building following spring break.
- Our custodial services department will be increasing our daily cleaning of surfaces and items that have high touch points.
- If you have travel plans over spring break, please be aware of the [guidance from the CDC](#) if you are traveling to a country that has a Travel Health Notice.
- We will provide updates, as needed, on our [LPS website](#) that will include the latest coronavirus (COVID-19) updates, as well as links to a variety of resources from the Centers for Disease Control, the Missouri Department of Health & Senior Services, and the Clay County Public Health Center, and more.

As this situation continues to evolve, we will continue to provide you with updates, as necessary. We appreciate your cooperation and support as we work to keep our students and staff healthy and safe.
